Re: In The Matter of:
Martha C. Rose Chemicals, Inc.
et. al.

Docket No: 86-F-0015

Dear Ms. Steincamp:

I apologize for not getting with you quicker after our telephone conversation of recent date regarding our client, Sharon Hayes.

Enclosed herein is a copy of the notice that was placed on the equipment as a result of the order of the agency heretofore entered.

Also enclosed is a permission by the owner of the real estate upon which the equipment is located authorizing the testing and sampling of the land area.

Mrs. Hayes obtained a number from one of the high-loaders. That number is C5378 on a piece of equipment with the brand name "Enerco". Apparently a number could not be found on the other piece of equipment located at the same area.

It is my understanding that agents of the agency have revisited the area where these two pieces of equipment are and have taken samples from the equipment and intend to remove them sometime in the very near future.

If you desire any other information or cooperation from our client, please contact the undersigned.
